OUR STORY

Yayasan Sukarelawan Siswa (YSS) is an entity owned by the Malaysian government under the Ministry of National Unity. Since its establishment in 2012, YSS was initially part of the Ministry of Higher Education and presently transitioned to/under the purview of the current ministry on December 3, 2022.

YSS aims to foster national integration and unity through volunteerism. Since its inception, it has successfully executed 52 high-impact volunteer missions across Sabah, Sarawak, and Southeast Asia, including Indonesia, Laos, and Vietnam.

YSS collaborates with strategic partners to support low-income households (B40) and other marginalised communities.

As of December 2022, YSS has trained 1,631 student volunteers in an immersive environment where they 'eat, live and breathe' with the communities, allowing them to engage deeply with the locals through experiential learning during missions.

As YSS alumni, they have access to ongoing opportunities for personal development and the chance to inspire positive change within their communities.

SPEECH BY

AAD

YB DATUK

AARON AGO DAGANG

Minister of National Unity/ YSS Patron

- In the spirit of Malaysia MADANI and Unity, greetings.

First and foremost, I would like to extend a warm welcome to the Student Volunteer Foundation (Yayasan Sukarelawan Siswa or YSS) into the family of the Ministry of National Unity (Kementerian Perpaduan Negara or KPN). Recognising the importance of ensuring that all citizens understand the history, culture, and heritage of our nation, KPN aims to nurture individuals with a strong sense of identity and patriotism. This mission has been strengthened by the addition of three departments and three foundations, including YSS.

I view the shift of YSS's functions on December 3, 2022, by our Prime Minister as a proactive step by the government to further empower "Unity in Diversity." **The role that YSS has played in the past aligns with the National Unity Policy, which outlines three Core Unity Thrusts that serve as the foundation for implementing the national unity agenda: Patriotism and Democracy, National Identity, and Unity Ecosystem.**

With YSS's experience in community and cultural programmes that involve students in higher education institutions since 2012, I believe that YSS can render assistance to the ministry in realising the Building Malaysia MADANI Framework through the concept of "Unity in Diversity". Engaging students in volunteer activities could also contribute to a deeper understanding of unity within higher education institutions. Through YSS's volunteer missions, we can certainly foster integration among students of various ethnicities and religions.

Therefore, I hope that YSS will continue to play a pivotal role in promoting interethnic integration through series of training and skills development, creating volunteer icons among students. I also hope that YSS, as one of KPN's key agencies, can play a crucial role as a driving force towards achieving the goal of strengthening the ecosystem of Malaysian Unity MADANI.
